

Happy

Mother's

Day

BSBRA SIGNAL 19

"and the following messages"

A MOTHER

*She carries you for nine months, Then cares for you Forever...
She watches out for you when you are young, Then watches over you for a lifetime...
She holds you closely in her arms for a while, Then tightly in her heart Always...
She is there through every change, Then never changes herself...
She teaches you about life, Then lets you leave home... and live -*

*A mother is every gift of God wrapped up in one person - Joy, Peace, Patience, Kindness, Goodness, Faithfulness,
Gentleness, Self-control And most of all... Love.*

Though I am no longer a child, I will always be My mother's child And that is comfort personified -

*My mother is a safe place to be, a soft place to fall, a refuge in every storm...
She calms the winds of life and helps smooth the paths I have chosen to walk.*

*I have never questioned Her love or her faithfulness,
My faith in her has never faltered...
She is the sun that rises every morning, and the promise of a new day.*

*She is the keeper of secrets, the spark to my dreams, the footsteps that walk beside me -
She is the one on the sidelines who whispers quietly, with hands folded in prayer and tears in her eyes,*

*"Go...go...go, I'm here."
She is the quiet heartbeat that keeps time with my own...
My mother is my best friend, the beacon of my life...*

My mother is home...

Chief William Froehlich # 30

Dear Members,

First, I would like to start by saying thank you to all of the members who have been stepping up to get the calls out. Like most months, April was another busy month where we found ourselves answering multiple alarms at one time. Your dedication to the Organization and your community is unmeasurable, and is always greatly appreciated. I will keep this short and sweet, but we have some things to address at this time.

It seems as though we are having another problem with the ants in the building. One can easily chalk this up to the cool, damp weather we have been experiencing, however, we are also to blame. Several time in the past month, I have walked into the building where I have had to throw away food that has been left on crews lounge table. This is definitely a contributing factor in this issue. Please do your part and clean up after yourselves. I am sure that none of the members would live this way at home, so we don't expect it here.

OSHA gear is in, and should be worn on every call. There are still badge members who are avoiding the fact that the gear should be worn, and therefore, will be facing suspension and charges. Please do yourselves the favor and reach out to the Chief's Office, or uniform committee for your OSHA gear. **With that being said, I have Jacket #'s 62 and 85 in my closet. These two jackets were left around the building for at least 2 consecutive days and were confiscated by the Line Officers. We know who they belong to, and as per my request, are to come see me in regards. Should you fail to reach out to my within the next two weeks, you will also be suspended. The gear has been supplied by the BOD and has been outlined in the SOP's.** For all of the members who have been wearing it, there has not been a complaint about it.

We have a bunch of standby's that have been scheduled with the BSFD that have been posted. We are asking for all members to take a look at them and sign up as available. We have entered the summer months where we will have more requests for the MCI truck as well as the bike teams. Any help that you can give will be greatly appreciated.

Remember to sign in on the cards in the dispatch office. We are down to the wire in regards to eligibility and are entering the nomination months. If you did not sign in, it never happened. To date, we have at least half of our badge membership that has been disqualified from the voting process.

Keep up the great work, and as always, should there be any questions, please feel free to contact the Chief's Office.

Respectfully,

Bill Froehlich
Chief of Department
Bay Shore-Brightwaters Rescue Ambulance

3rd Assistant Chief Felix Rodriguez # 33

Hello All members.

First I want to start off by saying thank you and good work to the membership.

The key issue I want to touch on this month is the vehicles.

1- All mechanical issues must be reported immediately to the captain of the day, a chief, or Beth Haubrich

2- Any damaged done to the vehicles must be reported. The vehicles will be inspected daily by the COD and the crew chiefs.

All driver training has been suspending pending the revamping of the driver training program to teach potential drivers how to maneuver the vehicles

A Driver Training Committee was formed to revamp the current driver training process here at BSBRA, the initial task of the committee is to establish the pre-requisites needed to start driver training, then establish eligible trainers and finally create the training itself. The training will consist of classroom lecture along with a hand-on session, test, and road time with EVOC style course. We will keep, Saxon circle, parking in the ambulance bays at HQ, SSH/GH hospitals, 10 calls, and fire scenes. But, we will look to incorporate other task that will get the membership familiar with the district.

For the current drivers, we will start offering EVOC and include the road time session of the training for those who are in need of remediation. This new process is in its early stages and the committee still has a lot of work to go through, so there will be more to come.

As always any questions don't hesitate to ask when you see me at HQ.

Please drive carefully. Happy Mother's Day

Felix Rodriguez
3rd Assistant Chief
Bayshore Brightwaters Rescue Ambulance

Captain's Reports

SUNDAY Brian Dufour #50

Hello Bsbra members

I'm will start off by saying thank you to members that continued to help me out. It been busy month and It going to get busier as we slowly approaching the warm weather, therefore I will like to get these slots to fill with at least one full crew. From midnight to 6, I need a driver/emt, from 6 to noon, also need a driver/emt. So please, if you don't have duty slot or you looking to switch your current slot then come over to sunday.

Next thing I want talk about is the osha gear, I'm going to keep it simple. It is your responsibility to make sure that you have your osha gear on you on every jobs and put away after every tour. The seven captain will not be responsible for keep eye on your gear, therefore if it missing, stolen, etc you will not be permitted on ambulance simple as that. I hope everybody had a.wonderful Easter and remember to throw out the garbage and clean up after yourself please.....

First of all I want to wish all moms of the bsbra a very happy and wonderful Mother's Day. We will not be here unless you had volunteered some time with Dad. So Thank you We love You!!

Thank you to all members that come over daily to help us make this department what it is today.

A couple things I've noticed, when you go on a call, and you get back to the building, the call is not finish when you get off the rig, You must continue to the dispatch office and handout the PCR to the dispatcher on duty and restock the rig you've used. If there is no dispatcher you must take the time to fill out the logbook entirely "don't be lazy and leave it for the next dispatcher or your captain to come and finish your job!!" there is times I've come to this building and find 4-5 PCR's just laying on the counter with nothing being logged in.

Just a quick reminder that if you leave personal clothing all around the building, by the time you comeback to get it IT MAY NOT BE THERE ANYMORE!!

Happy Mother's Day!!

Common courtesy call to your captain of the day

We are seeing a rash of last minute call in's, no show-no calls, and members who consistently run late to their duty tours without any notifications to the Captain of the Day. We would like to remind the membership that a call just to give the Captain a heads up would be appreciated as they would be able to help cover that portion of the tour.

For the last minute call in's, it would be common courtesy to give your Captain an ample amount of time to assist in finding coverage. You might be asking yourselves, "What is an ample amount of time?" We are asking that you give a minimum of SIX (6) hours notice. Most people know (in the working world) that they will be calling in within at least that amount of time whether they be sick or just need a mental health day. We feel that the same applies for the volunteer world. We understand that things happen, however, calling in 15-20 minutes after your tour does not help us. We can't even find paid coverage in that time, let alone volunteer coverage. Please have the common courtesies to help the organization.

As far as no show-no calls, we can advise that this is totally unacceptable and it is spoken about way to often in meetings.

Members are also reminded that if you have a regular duty slot and you can not make it, you are to contact the Captain and try to fill your spot. (As per the SOP's). You are responsible for your duty slot, regardless if you are a probationary member, dispatcher, EMT or Driver.

These situations apply to all members, probationary and badge, call-in to interim. When you commit to a slot or to help out someone, please do it. You are giving your word that you will help them out.

Should there be any questions in regards to these requests, please see a Chief.

On behalf of the Chiefs Office, Bill Froehlich Chief @ bsbra

HIPPA

Just a reminder, there should be no patient info (ie. name, dob, or illness) to anyone at anytime. SCPD would be the exception due to their protocols as well as them being dispatched to the job.

We ran into a situation tonight with the security officers of Brightwaters. Regardless of whom is asking, HIPPA is in effect at all times. Should they ask for your name, it is up to you if you want to give it to them. You are a member of BSBRA and they not need any further info.

The Board has been made aware of the situation and will be taking the appropriate legal avenues to ensure our patients rights.

Should there be any specific questions, I ask that they are directed to myself or President Klopsis.

On behalf of the Chiefs Office, Bill Froehlich Chief @ bsbra

This Paramedic Core Course runs in conjunction with a Paramedic Refresher course. All Core students registering for this course must be present for all sessions listed above and not be registered with any other course sponsor. All Core students must provide St. John's University (SJU) with an EMS ALS Agency voucher to register for this program or pay the tuition of \$550.00 payable by money order with their name neatly printed on it. Vouchers will be provided first day of class. Students seeking individual core days that are registered with another course sponsor may take individual session at a fee of \$75.00 per ALS Core session. All rules and regulations apply to all core students as if they are a SJU refresher student. All students must provide their own core form DOH-4231 (06/12) for signatures.

All students will be required to take the FEMA online programs for successful completion of the program. If any student has already completed these requirements, they would have to provide documentation of such completion by session 06 or earlier.

These are the required FEMA courses: **IS-100.b, IS-5.a, IS-700.a**

FRIDAY, MAY 23 • 7:10 PM

PROBATIONARY MEMBER'S OSHA GEAR

To All Probationary Members,

As promised, we have replaced the older gear with newer, more comfortable gear. This gear has been placed on the back rack, just outside of the main lounge door. We believe that we have supplied several different sizes which have been numbered. We ask that when in use, you keep the jacket numbers with the pants numbers.

At this time, you will be required to wear this gear on accordance to our SOP's, which will be sent out ASAP as a reminder. After the use, we ask that you place the gear back in the rack where you found them. Please do not leave them on the racks up front.

Should contamination occur, please contact your captain should will ensure that the gear is properly washed. The gear is not to leave the building unless you are on a call or for Corp business. Please see the photos below.

Good & Welfare

Celebrating

We just got word from Marcy Young that Gary and his wife, Amanda just gave birth to a beautiful baby boy this morning. His name is Nick David Young and he's doing great! He was born [at 08:57](#) and is 7 lbs 2 oz and 20.5" long.

We congratulate the Young's and wish them the best. Welcome to the family Nick!

Congratulations

The chiefs office would like to congratulate Russell Friedman and Cassandra Oliveri on becoming a cleared EMTs within the department. Congrats Russ and Cassandra !!
