# BSBRA SIGNAL 19

“and the following messages”

## December...

*December is the twelfth and last month of the year in the Julian and Gregorian Calendars. It is the seventh and last month to have the length of 31 days.*

*December, from the Très Riches Heures du duc de Berry  
December got its name from the Latin word decem (meaning ten) because it was originally the tenth month of the year in the Roman calendar, which began in March. The winter days following December were not included as part of any month. Later, the months of January and February were created out of the monthless period and added to the beginning of the calendar, but December retained its name. In the Western World the month is strongly associated with Christmas.*

*Have a Happy Holidays.*

***Members,***

***I hope everyone had a happy and healthy Thanksgiving. A huge thank you to the members who were at the building pulling duty hours. Your dedication to the department and the community does not go unnoticed.***

***There are two exciting events happening this month. Our ugly sweater Christmas party is on December 17<sup>th</sup>. I hope to see all of you there. You're more than welcome to bring your friends and family. On December 10<sup>th</sup> our annual Santa Run will take place as well. For the newer members who have not been to either, I can assure you that you will enjoy yourselves. I hope to see everyone there!***

***The recreation committee is also planning a Skiing Trip for some time in January. If you have any recreation related questions or ideas, feel free to contact Kerri or Steve.***

# Common courtesy call to your captain of the day

We are seeing a rash of last minute call in's, no show-no calls, and members who consistently run late to their duty tours without any notifications to the Captain of the Day. We would like to remind the membership that a call just to give the Captain a heads up would be appreciated as they would be able to help cover that portion of the tour.

For the last minute call in's, it would be common courtesy to give your Captain an ample amount of time to assist in finding coverage. You might be asking yourselves, "What is an ample amount of time?" We are asking that you give a minimum of SIX (6) hours notice. Most people know (in the working world) that they will be calling in within at least that amount of time whether they be sick or just need a mental health day. We feel that the same applies for the volunteer world. We understand that things happen, however, calling in 15-20 minutes after your tour does not help us. We can't even find paid coverage in that time, let alone volunteer coverage. Please have the common courtesy to help the organization.

As far as no show-no calls, we can advise that this is totally unacceptable and it is spoken about way to often in meetings.

Members are also reminded that if you have a regular duty slot and you can't make it, you are to contact the Captain and try to fill your spot. (as per the SOP's). You are responsible for your duty slot, regardless if you are a probationary member, dispatcher, EMT or Driver.

These situations apply to all members, probationary and badge, call-in to interim. When you commit to a slot or to help out someone, please do it. You are giving your word that you will help them out.

Should you have any questions in regard's to these requests, please see a Chief.

On behalf of the Chiefs Office, Felix Rodriguez Chief @ bsbra

# Captain's Reports

## MONDAY Dana Dequatro #51

***I wish all of you and your families a very, Merry Christmas and Happy Hanukkah. Always keep your family and friends close.***

***Dana DeQuatro Monday Captain 51***

## TUESDAY Daniel Rollero #52

***The diner was wonderful, good times where had by everyone I spoke to. November, Thanksgiving time to give thanks. things that I'm thankful for are family, my kids and their mother, and the family that I have here. Even though I do not express myself often I hold all of you in high regard. Even though we may have disagreements at times , Like any family in times of need we will all come together to make things happen in a harmonious agreement to see to the common goal and that goal is to make things better for others. Because in their time of chaos we are their calm and we come together as a family and family is what I'm thankful for.***

***Daniel Rollero Tuesday Captain 52***

## THURSDAY Kerri Paoletti #54

***I would like to begin by thanking all of the members who chose to do holiday duty on Thanksgiving. I know it is a sacrifice to spend time away from your family and devote your time to ensure the calls of the community are answered.***

***A few reminders: To cleared drivers: As per the vehicle and traffic safety law, if your lights are on, your sirens should be as well. I know that here on Long Island we try to be courteous to our neighbors, however, when proceeding through intersections, it is REQUIRED that you use your sirens! Also, it is the driver's responsibility to ensure the rig is ready to go for the next call. This means that while the tech is writing their PCR, you are cleaning the back of the rig.***

***To all members: Please make sure that if you have a messy call, that all reusable equipment is properly cleaned & disinfected. If you are not able to do so, take that piece of equipment out of service & notify a member of the OSHA committee immediately. There are no exceptions to this rule. Finding dried blood on any piece of equipment is 100% unacceptable. We are all responsible to keep each other safe!***

***I would like to personally thank the Friday crew for doing an amazing job decorating the building during our annual building decoration!***

***Merry Christmas, Happy New Year & Happy Holidays to all of you! All the best to you & yours!***

***Kerri Paoletti Wednesday Captain 55***

## FRIDAY Steven Cameron #55

***Hello all,***

***First off I hope that everyone had a happy and healthy thanksgiving with their families. With the winter coming up we need to be ready for more cold weather exposure calls and it's very important to make sure the rigs have blue blankets and that we bring them back from the hospital to be washed. Lastly I just want to put it out there that I'm light on crews from 0600-1400 so if anyone is available to come down it would be greatly appreciated. Everyone have a happy holiday and stay safe, keep up the great work!***

***Steven Cameron Wednesday Captain 55***

## SATURDAY ANTHONY GARCIA #56

**Good day everyone,**

***I'd first like to start by recognizing and thanking everyone for their continued support and dedication towards this organization. I would like to let everyone know that I notice the things they do for this place. Also, a big shout out to the youth squad. A lot of members may not know what they do behind closed doors but it's nothing but progression. They are being shaped into members of society that hold value. They are constantly learning new things and doing what's best. In November they shopped for then donated 15 thanksgiving meals to families that needed. They did this to continue moving forward and doing what's right for the group and I look up to them for that. Props to Christine Flick and John Martinez for their continued success.***

***As far as Saturday's goes I think it's safe to say we're all having a blast and would like to invite everyone else to join us in our daily festivities. Come down and get in on our lengthy lunch discussions. Stop by to be a part of our 3rd and 4th alarms. As questions to some of our life members that come out and ride on Saturday's. Stop by to even sit around or family's dinner table and sample some of Jackie's meals.***

***The way we continue BSBRA's greatness is by continuing our productivity. Strive to do more, push yourself and each other to achieve tasks that you could be proud of. This organization runs on the effort of every member. We must continue seeking the best education for ourselves. We must continue seeking the best leadership for ourselves and we must continue raising the bar. I urge everyone to participate in this. If you see that others aren't on the same wavelength rise up to the challenge and bring them aboard. We do this for our communities and I do this for all of you. I wish for nothing but the best. As a department we should never halt our productivity. Never stop after receiving recognition. Never give up after just one failed attempt. What won't be successful is doing nothing at all. So Let's push the front lines of this battle to continue BSBRA's greatness.***

**Anthony Garcia 56**

## JONATHON MICHEL SOD

**I'd like to thank Jackie, Karen and Hailey for helpful by me complete checking and organizing all the PCR's from the past few months. We are always looking for help on Saturdays, or if anyone is available to help out on other days please contact me.**

**You may have noticed that when transmitting on BSBRA OPS from the Dispatch Console, you no longer hear a beep before talking. This is normal, we've changed the way our console connects to the radio system. You are now able to use the console to override field units; you will still hear the person talking to you, but everyone else will hear your message.**

**Thanks and Happy Holidays!**

**Jonathon Michel Secretary of Dispatch**

*Thank You*

*The Youth Squad  
would like to thank all BSBRA  
members for helping and making  
this thanksgiving Food Drive a  
Success.*

*GOD will bless You!*

# BSBRA Announcements

***Hi Everyone!***

***As many of you know, our annual holiday party is quickly approaching. We would really like to make this our best one yet!***

***Thanks to the suggestion of Denise Jimenez, we are going to do an Ugly Sweater Party this year! There will be a prize for the ugliest sweater! We will, of course, be playing Dirty Santa as well!***

***We are looking for a DJ to play music for us as long as the party lasts. Nothing crazy or fancy, just someone to keep it going. If you are able to donate your time to do so & have the equipment, or if you know of anyone, please contact me ASAP!***

***If you have ANY suggestions, or would like to see us do something special, please contact myself or Captain Steven Cameron. This party cannot be a success without your help & input!***

***Thank you!***

## Use of LUCAS™ CPR Device

**Purpose:** LUCAS Chest Compression System is to be used for performing external cardiac compressions on adult patients who have acute circulatory arrest defined as absence of spontaneous breathing and pulse, and loss of consciousness. LUCAS must only be used in cases where chest compressions are likely to help the patient.

**Scope:** Bay Shore-Brightwaters Rescue Ambulance has purchased two Lucas CPR devices. This SOP is intended for all Bay Shore-Brightwaters Rescue Ambulance members.

### **Definitions:**

A) The LUCAS™ Chest Compression System is a **safe and efficient tool that standardizes chest compressions in accordance with the latest scientific guidelines**. It provides the same quality for all patients and over time, independent of transport conditions, rescuer fatigue, or variability in the experience level of the caregiver. By doing this, it frees up rescuers to focus on other life-saving tasks and creates new rescue opportunities.

### **Procedures:**

- A) One LUCAS™ CPR Device will be at all times | the first due ALS Responder (3-24-80 or 3-24-81).
- B) The other Lucas CPR device will be housed in the Vehicle Bays alongside the RAD-57. The second due duty crew or second due ALS responder will be responsible in ensuring that the second Lucas device is taken, if a second alarm goes out and it's use maybe required.
- C) First due ALS provider Paid or Volunteer must ensure that the device is available and ready for use.
- D) Captains of the day must ensure that the second device is available and ready for use.
- E) After each use the device must be cleaned with the appropriate solution to ensure that it has been properly sterilized
- F) Any issues with the device immediately call Paid ALS Supervisor, Captain of the Day and/or any of the Chief's.
- G) All new members and paid employees will be in-serviced by the Paid ALS Supervisor, Training committee, crew chief and/or Captain of the Day.

Do NOT use the LUCAS Chest Compression System in these cases: • If it is not possible to position LUCAS safely or correctly on the patient's chest. • Too small patient: If you cannot enter the PAUSE mode or ACTIVE mode when the pressure pad touches the patient's chest and LUCAS alarms with 3 fast signals. • Too large patient: If you cannot lock the Upper Part of LUCAS to the Back Plate without compressing the patient's chest.
