What is the Signal 19?

For years Bay Shore Brightwaters Rescue Ambulance had produced a monthly newsletter distributed at the General Meeting. This newsletter helped to keep all the members up to date on events going on in the organization. A few years ago the newsletter was transformed from paper format to digital and became known as **Signal 19**. Credit should be given to the driving force behind the digital Signal 19, John Martinez. When John resigned the digital newsletter fell by the way side. The Chief's Office is excited to announce that they have brought the digital newsletter back. If you enjoy it, let us know Signal19@bsbra.org

So, once again we find ourselves with our beloved Signal 19, our digital monthly newsletter. Originally, the brainchild of past member John Martinez, it has thankfully, been resurrected by April Kunz. April, thank you for all your hard work and dedication on this project.

It's hard to believe, that we are already halfway through our "BSBRA year" and spring will soon be upon us. Considering the brash of February storms. A special thanks to All that were able to, and helped us through our numerous standbys.

Just a reminder from now, March through August (the next six months) General Meetings will fall on the first Tuesday of every month. The reason for such, is the EMT class which we are hosting here at BSBRA .

As always, I know we will be professional and accommodating to our guests and while this may seem to be an inconvenience, but we here at BSBRA will gain 15 new EMTs for our own squad.

Outstanding!

As always, Stay Safe and be careful out there,

Matt Phillips
Chief of Department

Dear Members,

It has been a long couple of years, but we are thrilled to see the Signal 19 Newsletter back. We would like to thank the signal 19 committee for resurrecting this great form of communication and we wish it, as well as the committee great success! First and foremost, we would like to say thank you.

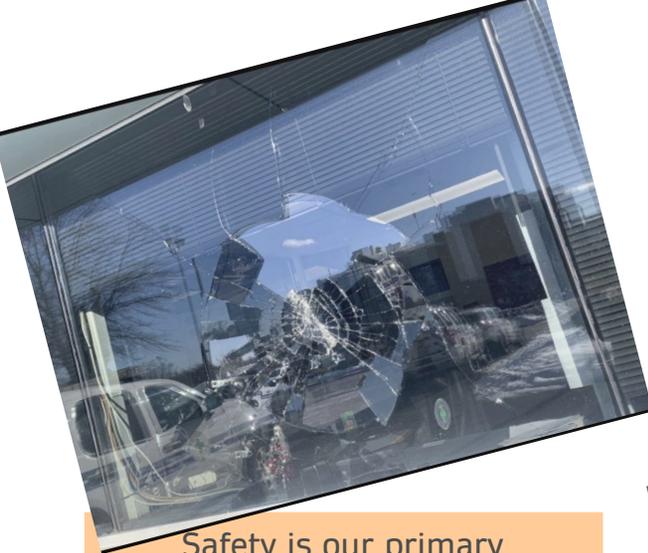

Thank you to the ENTIRE membership for your hard work and dedication throughout the 2020 year. We understand the hurdles that have been jumped and the sacrifices made both personally and professionally by many of our members. This agency has seen its fair share of ups and downs, but together we have conquered and persevered as one. We ask that everyone keeps up the great work and take solace in knowing that the support system that has been forged upon all of us is strong. It's been four months since the current Board of Directors has taken the oath to serve the membership of BSBRA. During that time, we have diligently worked with the Line Officers and various committees to get our membership the tools you need to do the job at hand. It has been a great undertaking, but we are proud to announce that thus far, we have met our objectives with hard work and most importantly, as a team. We continually look forward to the renewed and valuable relationship that has been built with the Chiefs Office and are excited to be a part of continued growth and success of this great agency.

Looking towards the future, the Board of Directors is committed to helping the membership succeed in our mission statement to deliver the highest standard of emergency care to our community. Some of the projects that have already been started includes upgrading the portables to a dual band style radio. Increasing communications amongst crews will help deliver the most efficient care in a very timely manner, while maintaining the safety of all involved. We have also purchased new stretchers as well as the power load system for the back of the ambulances. Retrofitting our existing ambulances with this system will assist all providers in quick and safe loading and unloading of patients, all with the providers well-being in mind. In the next few weeks, we will be launching a complete overhaul of our audio and visual capabilities, the meeting room, as well as the training room and conference room. This needed capital improvement project will greatly assist us in conducting meetings, trainings and will increase our abilities to conduct remote sessions of both. To date, our mold remediation projects in both the kitchen and bedrooms are complete and we are looking into additional building projects to meet the changing needs of our organization.

As you can see, the work never ends. Collectively, we are excited about the possibilities of our future and will strive to do our part in the agency's success. Each and every day, inside as well as outside of our organization, we ask the members to keep our core values in mind: Compassion, Quality Care, Dignity, Respect and Accountability. To some, these are just words on a piece of paper, but to our community, it is a lifeline and a reminder of the hard work we do each day.

Keep up the great work, and as always, be safe!

*Best Regards,
The Board of Directors*

Safety is our primary concern. I know you all are aware of the vandalism to our front dispatch window. There was also two minor incidents with people unlawfully remaining on our property. These incidents have occurred between the hours of 11p - 230a. **Please be extra vigilant and aware.**

1st Assistant Chief

Dana DeQuatro

*Hello everyone, if you are reading this that means you have access to the Departments signal 19- a valuable tool to keep you updated on trainings, events, personnel, etc. Much appreciation to April Kunz for getting Signal 19 up and running again !

*Next, if any member finds themselves having difficulty fulfilling their duty hours whether it be school, work, family situation, please reach out to a Captain. If it is a private matter, always feel free to reach out to the Chiefs Office. There are many ways we can help any member achieve a balance of volunteering and other obligations.

The key is communication. Always keep open communication with your Captain and we will work with you. We understand your membership at BSBRA is a huge commitment and we don't want it to interfere with your family, work, school or any other personal obligations. Life happens. It has been my experience when a members suddenly stops showing up it is one of two things- huge life event or somebody here pissed them off. Communication is key to solving any problems and getting back on track.

*Lastly, I wanted to compliment you all on the way you care for patients. Your interventions and skills are on point but there is something else you all have in your arsenal of patient care and that is bedside manner, also known as psychological first aid. In the last month I have received two phone calls from a family member and neighbor regarding how well the crews took care of loved ones - very caring attitude. I was on another call and when we transported the patient to the hospital and transferred the patient to hospital bed the patient said to the tech **"do you have to go? Can you stay with me a little longer ?"** That is a huge compliment and testament to how our members provide care. To build up that much trust and rapport with a patient considering our short transport time is phenomenal.

KEEP UP THE FANTASTIC WORK! ALWAYS STAY SAFE.

Dana DeQuatro

2nd Assistant Chief

Kerri Paoletti

MARCH

Monday 3/1: First day of EMT
Original Class

Tuesday 3/2: General Meeting

Thursday 3/4: Crew Chief Training
(1800)

Sunday 3/7: CPR Original (1030)

Monday 3/8: Officers Meeting

Tuesday 3/9: BLS 12-Lead Class
(1900)

Friday 3/12: OB/GYN Emergencies
(1900, CME credit)

Sunday 3/21: Pet CPR/First Aid
Class (1200) Sign-up
sheet in training room)

Wednesday 3/21: OB/GYN
Emergencies (1900,
CME credit)

Everyone has been doing fantastic with keeping up with trainings. If you are unable to attend or have any problems, please let me know so that we can work on a solution. Every single member of the department is responsible for trainings. Please see the current bylaws.

EMT class is beginning. Please be mindful of the volume in the building. The days are Monday & Thursday 1900-2200 and Saturday's 0900-1200. If there are any concerns or issues should they arise, please contact me right away.

There is going to be a lot of activity in the building these next few months. The calendar is listed to the left.

Additionally, there will be a PCR training offered as well. This is TBD as the instructors are in the process of finalizing the lesson.

If you have any suggestions or would like to see a certain training, please contact me. Also, if there is something that you would like to teach the members of the department, please reach out to me.

Thank you for everything you have done & continue to do! The positive energy & excitement is felt throughout the entire department! Stay Safe!

Respectfully,
Kerri Paoletti, RN, BSN
631-873-8040

3rd Assistant Chief

Brian DuFour

To the Members,

I like to start off by stating, I am excited of the return of the “signal 19”. In the past, it was great resource for our members. The upcoming events, updating training, and public media show who we are as member of Bay Shore-Brightwaters rescue ambulance etc.

A few upcoming events for month March. We will be having our annual building cleanup from March 7 to March 13th. Traditionally, we usually clean up the building and prep our vehicles for St. Patrick’s Day. Due to Covid-19 pandemic, the parade was cancelled. But we will continue our tradition to our Annual Building Cleanup and finish off with corn beef and cabbage lunch at the end of the week.

EVOC in-class and practical will be held on March 20th at 1300 (in-class) and March 21 (practical). Must attend both days.

Sunday, March 14 at 02:00, daylight saving begin, remember to move your clock forward. March 20th is the day spring. My favorite season of year.

I would like to end my report with a quote, do not ask who said it.

Bryan D Dufour

3rd Assistant Chief

Sunday Captain

Anthony Seymour

Hi all! I just want to say, I am so proud of every single one of you. Your hard work and dedication this past month did not go unnoticed. Seeing all of you come together to get these calls out and go above and beyond is nothing short of extraordinary and inspirational. Thank you to everyone who helped out with our multiple standbys and thank you for everything you do day in and day out to help our community.

That said, we are light for crews 0000-1200 and 1800-2400hrs any help would be greatly appreciated. If you need driver or EMT precepts, come on down! As always, if you guys ever need anything at all, please reach out to me at (631)219-8479

Anthony Seymour

Monday's Captain

Nora Phillips

Mondays are going well, typically we are, the lightest during the “usual times” when most other days are light on crews as well, that being the **00:00-06:00** and **06:00-12:00** shifts.

If you can help at any of those times, please reach out to me.

Otherwise, if you are looking for precept time, whether it be for driving, or EMT, we have plenty of qualified individuals here on the 12:00-18:00 tour, as well as the 18:00-23:59 who are more than willing to help you out.

Thank you,
Nora Phillips
Captain 3-24-51

Tuesday's Captain

Nadine Navarro

Hey Guys and Gals,

Tuesday invites any and every one down for Family Dinners, and some training fun. We are a fun loving group that will keep you in stitches with our attics and morale boosting conversations. We have preceptors for Driving and EMT all thru out the day. The paid staff and volley crews work effortlessly together to get the job done. So come hang out and bring your friends.

Nadine Navarro

Too often we underestimate the power of a touch, a smile, a kind word, a listening ear, an honest accomplishment, or the smallest act of caring, all of which have the potential to turn a life around"

-Leo Buscaglia-

Wednesday's Captain

Tony Tola

Hi All, Just want to say Thank You to everyone for all the get well wishes!

Thank you again for all the help!

I'm looking forward to being back ASAP.

My phone is always on, if you need anything don't hesitate to reach out.

As well, we have multiple preceptors throughout the day, both Driver and EMT. Don't be scared to come down!

Stay Health and Stay Safe.

Tony Tola

Thursday's Captain Chris Orlik

First and foremost, I would like to thank everyone for the additional help the last few weeks. Between unavoidable call outs and snow storms galore, the help was very appreciated. As always, anyone looking for precepts (driver, EMT, or ALS) is always welcome to come down. Even if you aren't looking for a precept, everyone is always welcome. As

always, don't forget Thursday's is the day to come down if you like

ice cream cake!!!

Chris Orlik

Friday's Captain Tom Broskie Jr.

Hello, I am very excited Signal 19 is back, thank you to all involved. As far as coverage during the day, we need help. Currently we only have Vollys from 1800-2400. Help with the overnight would be great as well. If you need Precepts for Driver of EMT we have preceptors for both from 1800 on.

We have a bunch of Probies on Friday night, so any EMTs that want to come down and share some knowledge would be very much appreciated. They are very eager and have been stepping up tremendously.

In closing, I would like to again send condolences to our Crew Chief Sally Tobar for the passing of her father Angel Tobar.

Tom Broskie Jr

Saturday's Captain Will Astacio

Ma, What's for Dinner?

Saturday is are rocking and rolling. I really appreciate all the members who come down and help not only on Saturdays, but every single shift. Your dedication and commitment is by the far the best.

We have had quite a number of snow standbys and have managed to cover the district on every single one of them while also helping the neighboring communities. Remember it is still cold out there so dress accordingly. Remember do not let off the gas now, come in do your rig checks and part around the building.

Saturday has a great amount of experience from Ex Chiefs, CPTs, and BOD. If you need to get precept whether driving, BLS, or ALS come on down. We work hard and play hard. Just about every Saturday we have a home cooked meal by Ma. Her cooking will always have you coming back from more. If you are feeling froggy and want to test your skills out on ping-pong, I have quite a few members who will give you a great challenge.

Starting March 1st BSBRA will be hosting an EMT class. With that being said, we will be seeing a lot more individuals on Saturday for about the next 6 weeks for class. We ask if you do come down to be respectful while they are learning their skills to be the providers helping the community.

Let us all continue to do our part and be the best that we know we are. Watch one another's back, while still providing the best care possible. If for any reason any one needs anything, please feel free to reach out. Whether cell, email, groupme, or smoke signal. I look forward to working with each of you all while also learning each day.

Will Astacio

Committee Reports

Membership Committee

Hi everyone, membership/recruitment committee has resumed conducting interviews of applicants seeking membership in the Department now that the COVID restrictions have been lifted. If any of you know a family member, friend or co worker who would be a good fit for the Department please reach out to any membership committee member or have them fill out an online application. Our committee contacts applicants within hours of receiving applications and sets interviews within 72 hours. Thank you for your cooperation. Stay safe!

Have You Ever Heard of the Trauma March?

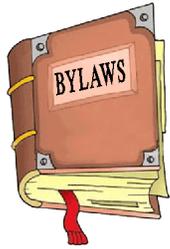

M	MASSIVE HEMORRHAGE	OBJECTIVE: Stop Blood Loss

C	CIRCULATION	OBJECTIVE: Continue Assessment
H	HYPOTHERMIA	OBJECTIVE: Prevent Body Heat Loss

Fund Drive 2021

We met with a new local vendor (G&F Marketing) who has great success stories with local departments near to us, more eye catching mailer materials, and will meet the price he gave us in 2019, Which is \$20 more that what we paid for our 2020 Fund Drive Mailings.

He has worked with many local agencies on their Fund Drives (both FD and Ambulance) and we have received much positive feedback. I am looking forward to working with this new vendor.

The Membership will take a vote (3/2/21) on our recommendation to utilize G&F Marketing for our Fund Drive for 2021 at the general meeting after the presentation.

By-Law Committee

Below , You will find these by-law revisions which, once a complete check is done by the by-law committee, (for accuracy) will be forwarded to all members in a PDF format via your email. There is one additional revision, that will accompany these as well. That said, the by-law committee has worked tirelessly to get to you, the membership, the most up-to-date by-laws that are available. Once you receive them, these in conjunction with your packet dated July 2020, will be our most up-to-date bylaws.

If anyone is looking to amend any existing by-law please see the revised ARTICLE XV BY-LAW AMENDMENTS and follow the process and we will be happy to look at your submission and consider any reasonable revisions/amendments. In advance we thank you,

Matt Phillips

Chief of Department/ By-Law Committee Chair

BIKE TEAM
Soon we will be setting up training to familiarize the team with equipment and the bikes, in preparation for the season. The season is approaching quickly so stay tuned for some upcoming cool pictures and information on upcoming Parades if COVID permits ~N. Navarro

Committee Reports

Recreation Committee

Hello Everyone!!!

It's been on hell of a year, but we're turning the page on with 2021 and the recreation committee just wanted to give the membership and update on some of the things in the works.

GAME ROOM:

We are in the process of looking into hardware upgrades for the game room. Next generation consoles are out and we'd like to get current systems updated as well as look at other hardware options for the room

SPRING SOFTBALL:

Spring is just around the corner and that means it's time for some softball. We had a great time with the fall season and are looking to keep those going into the spring. The spring season is shorter by 4 weeks, so we will be using the season

FUNDRAISING:

Thank you to everyone that participated in our Driven Coffee Fundraising Event. Even though we have not reached our goal, we still raised just over \$400 with Monday crew in the lead for the sales contest. CONGRATS!!

The Fundraising Committee is closely monitoring the state guidelines and restrictions due COVID-19 and will still work diligently to raise funds and come up with events that follow those guidelines. Please stay tuned for upcoming events. Anyone that has any ideas regarding fundraising or donations please reach out to AJ at (631)219-8479. Thank you!

as a try out to get the team set for the longer summer season. There will be a sign up sheet posted soon the first game is Sunday March 28th. There will be a change from the fall season and that is.

There will be a "Main" roster and a "substitute" roster. The main roster will have a total of 15 players with 9 men and 6 women as it is a co-ed league we must field 6 men and 4 women at all times in order to play. The substitute roster will have a total of 10 players with 5 men and 5 women. If there is a weekend where a main roster player cannot play we will reach out to the substitute roster to fill their spot that week. This is to ensure that we do not end up short and scrambling for players which happened in the fall.

If anyone has any questions please feel free to reach out to any member of the recreation committee and we will gladly get back to you ASAP. Also feel free to bring up any ideas or suggestions to the committee as well. Even if you are not on it. We are here to serve the members so we'd love to hear from all of you!!

Stay Safe and we'll look to have more updated for you soon.

-Recreation Committee

Jim Gilliland is a paramedic and an EMS instructor. Jim will be teaching the EMT Original Course at BSBRA. Some of us at BSBRA have known Jim for many years. We want you to get to know Jim too. This month we Spotlight on Jim Gilliland.

How long have you been in EMS? Since 1984 37 years.

What significant changes in EMS have you seen over the years? I have seen major changes in EKG monitors, the addition of AEDs, more useful critical medications and more pushed down responsibilities for EMTs.

Where have/do you ride? I have teched for TWC Ambulance, Long Beach Memorial Hospital, Point Lookout Lido Fire Dept , North Lindenhurst Volunteer Fire Dept and the Nassau County Police Department Emergency Ambulance Bureau.

What inspired you to start an EMS career? Graduated from college and my sister fell down the staircase in our house. I couldn't help her; she didn't want me to touch her. I called 911 and the PLLFD Rescue showed up with a tech I knew as one of my prior schoolteachers who calmed my sister down and took great care of her. I never wanted to feel helpless ever again and I always wanted to be there for my family! Joined the PLLFD the next month and started my first EMT course shortly thereafter. I now teach aside the tech who took care of my sister and we are both energetic and excited about how our paths have crossed today 37 years later.

What inspired you to become an instructor? While working for the NCPD EAB, I was asked by a supervisor if I was interested in coming to the Nassau County Fire Police EMS Academy as a statistician. The tours were better for my family and it involved me working with the most talented group of Instructors I have ever had the pleasure of refreshing thru. I said yes and within 2 years of transferring, I attained my CLI & CIC certification and became a BLS, ACLS, PALS, PHTLS, PEPP and GEMS instructor alongside my mentors who always pushed me to do more. The instructors I had around me helped me so much.

What advice can you give to students that may be taking your class or looking into to taking a class? First and foremost, have enough time slotted to give it the time it needs for you to understand the material, and how it will affect someone else life going forward. Life has changed a lot for many and working multiple jobs is now the norm. You must care about the human condition irregardless of your patient's situation. Like I said before, I always mention to students the reason why I got involved because I never want to feel helpless and I feel great appreciation when I get the chance to help others when they call for help. What better feeling is there?!

What advice can you give to new EMT's just starting out? Take your time, but give it your all and most of all PRACTICE what you have learned. It is only good if you can help others with what you've learned. Your teacher is your guide, your friend and your mentor going forward. You will have questions and you will question yourselves as well. Be confident in what you know, use it as often as possible and never forget, later in life when I and you grow older and we need

help, who will we get for all the good work we did in our past. Will we have a caring EMT who will care for me as if I was a member of his family? Treat people as you would want to be treated, and always give them the best you have, nothing less. GO BIG always.

Is there a short story from your EMS career that you can share? Yes, very recently I had the opportunity to teach an EMT class for local high school students and I was attending my third lab when one of the lab instructors assigned to my class was the one who took care of my sister when she got hurt at my home. That day, he was to be *my lab instructor* to a high school EMT class I *was teaching* and we were working together to train others to be EMTs and to help others going forward. **37 years later. What a**

Jim Gilliland long strange career and trip its been.

With Great Sorrow...

We wish to send our deepest condolences to the families of Jacob Grullon and Sally Tobar.

now, unable to reasonable meet the high standards and commitment you all meet every day.

I rest assured that the high level of care and compassion that you all display everyday will be the level of care my family is shown in Bay Shore. Thank you all again. I hope to be able to return one day and see how the company has continued to thrive.

Gratefully,
Anthony Geritano Jr.

Good and Welfare

Get Well Soon...

We like to wish a speedy recovery to Tony Tola, Jen Davis, Jim Nelson and Holly Maiforth

Good-Bye My Friends

Unfortunately due to me moving out of Suffolk County, I will no longer be able to fulfill my duties at BSBRA. I'm honored to have been a member of the department for over 3 years and I'm sad to hang up my EMS hat during this transition. I joined the department while attending Stony Brook School of Nursing and it was my first experience with EMS in the public sector. Having worked Field Medicine and Intensive care in the Navy, I knew it would be exciting and challenging. Everyone that I had an interaction with was always a positive experience.

I wanna thank the department for its hospitality and welcoming family environment. I would like to leave off with three things that I feel are important to remember. Firstly, for those new members. Ask those challenging questions. It's ok to not know the answer. Just know that you have years of experience around you. So listen to your leaders. Find a mentor! Secondly. Take care of each other. This goes without saying, but should be recognized that this job is mentally and physically taxing, and it takes strong people to do the job. Keep pushing forward even in the face of adversity. Lastly. I would like to say to continue to police each other. Remember. You are only as strong as those around you. Never let your integrity become questionable. Make sure you continue to do what's right for your community and the department even when no one is watching. Support one another and continue to be outstanding members of the community you serve. ~Jason Chervin

We are happy to announce, that due to the lifting of some of the COVID-19 pandemic restrictions that (once again), we will be re-starting the Youth Squad program. We, as always, (when possible) meet almost every Saturday from 10 AM to 1 PM.

Our meetings consist of approximately 15 to 17 members each week, although we have 23 members on the roster.

That said, any new members, or even older members who would like to come down and work on skills, (or help the youth squad members work on skills), typically we spend the first hour taking care of meeting business and topic lecture, and the last hour and a half to two hours is spent on practical skills.

Thank you,
